Expected graduation: 2028 (3rd Year)

SKILLS

Languages: Python, Java, C

AI & ML: Machine learning fundamentals, AI application development

Web & Deployment: HTML, CSS, React, FastAPI, REST APIs, Vercel, Railway

Data & Tools: SQL, MS Excel, Git/GitHub, Linux, MS Word, MS PowerPoint

PROJECTS

HeatShield AI — Heatwave Early Warning & Thermal Stress Platform

SIH 2026

- Smart India Hackathon 2026 project (Team ThermaX): turns weather, satellite, and population data into ward-level heat-risk intelligence and actionable interventions for Bengaluru.
- Built a FastAPI (Python) backend computing thermal-stress indicators (Heat Index, WBGT, UTCI) and vulnerability-based risk, with 3/5-day forecasts, heatwave detection, and alert escalation.
- Developed a React dashboard with forecast, alert, and ward views that ranks hot-spot wards; integrates Open-Meteo, ERA5, Landsat 8, WorldPop, and Google Earth Engine data.

Event Management System

Full Stack

- Built a web application to manage event registrations and run QR-code-based attendee check-ins.
- Live demo: gr-tenpearl.vercel.app

Prerana Fest — Official Website

Web

- Designed and deployed the official website for the Prerana college fest, covering event details, schedule, and registrations.
- Live demo: prerana-2026-zeta.vercel.app

Al Malik Islamic Calendar

Web

- Developed a web application displaying the Islamic (Hijri) calendar with key dates and events.
- Live demo: al-malik-scalendar.vercel.app

EXPERIENCE

Artificial Intelligence Intern — Partnik Infotech

Jun 2026 – Aug 2026

- Worked on applied AI/ML tasks as part of the internship program.

Student Life Associate (Student Leader) — GITAM University

Jul 2025 – Mar 2026

- Supported student life initiatives, coordinated campus activities, and acted as a liaison between students and university administration.

Campus Ambassador — Corizo

Aug 2025 – Sep 2025

- Represented Corizo on campus, promoting learning programs and driving student engagement.
